

Spreading Joy Enhancing Lives

DUTRON Drain
Underground Drainage
PVC-U Pipes (Self-fit type /
Ring-fit type) are manufactured
conforming to IS:15328. These pipes
are available in sizes from 110 mm to 400 mm
with different stiffness classes. They come with
solid wall and are compatible with regular
PVC fittings. DUTRON Drain pipes are
supplied with one side socket ends and
in Orange (Golden Brown)
colour.

○ Salient Features

- Specially designed for underground non-pressure applications
- Easy to install
- Hygienic and leak-proof
- Smooth inner bore for better flow rate of water
- Lower installation & maintenance cost as compared to conventional pipes
- Excellent stiffness and impact resistance
- Ease of jointing when using uPVC joints & fittings
- Available in 6 mtr. length

○ Dutron Group Products
